

COMPLIANCE STATEMENT WITH REGARDS TO EXTRICATION GLOVES BY MAJESTIC FIRE APPAREL, INC.

Majestic Fire Apparel, Inc. products are made with overall quality, end-user safety, and the environment in mind. Products are manufactured to meet the requirements of our customers, and are further supported by an effective system of quality management controls, while maintaining procedures for reviewing raw materials and utilizing test data from third parties to support our compliance with various standards.

Based on information from our suppliers, we make the following statements as they relate to our EXTRICATION GLOVES.

Disclosure for Use of PFAS in Majestic Fire Apparel, Inc. EXTRICATION GLOVES

Majestic Fire Apparel, Inc. does not alter, add, or utilize the use of PFAS chemicals in our processes in the distribution of extrication gloves. We are committed to providing high-quality products through our carefully selected network of trusted suppliers and partners. Our suppliers select barrier fabrics that are purchased from textile manufacturers for incorporation into the manufacture of extrication gloves. Based on the information provided by these barrier fabric suppliers, their fabrics contain polymer compounds that fall under the definition of PFAS chemicals. These polymer compounds are critical to the wearer's general safety by providing essential protection while reducing the risk from extremely dangerous exposures, which includes limited protection from exposure to particulates, while enhancing wear comfort by managing heat and moisture.

California Proposition 65 Compliance Statement with regards to Majestic Fire Apparel, Inc. EXTRICATION GLOVES

Majestic Fire Apparel, Inc. does not alter the inherent chemical properties of any fabric utilized in the distribution of extrication gloves. We are committed to providing high-quality products through our carefully selected network of trusted suppliers and partners. Our suppliers select barrier fabrics that are purchased from textile manufacturers for incorporation into the manufacture of extrication gloves. Based on information received from these barrier fabric suppliers, their fabrics may contain a known chemical to the state of California to cause cancer, birth defects, or other reproductive harm.

It is our ongoing commitment to comply with all health, safety, and environmental regulations and we continue to reevaluate our products as these regulations evolve.

If you have any questions concerning the safe use of our products or require additional information, contact Majestic Fire Apparel, Inc. at 610-377-6273.

The provisions of this Compliance Statement supersede and replace the provisions of all other certificates and/or communications (whether written, verbal, or otherwise) previously delivered relating to the above Majestic Fire Apparel, Inc. products.

You are responsible for determining the suitability of product(s) under actual conditions of handling and end-use in accordance with the applicable regulatory requirements specific to your area, state, or country. Nothing in this Compliance Statement shall be construed as a warranty of any kind with respect to the product, express or implied, respecting merchantability or fitness for a particular purpose. Majestic Fire Apparel, Inc. does not conduct separate testing on the products and relies on compliance information received from our suppliers. Because of many factors beyond our knowledge and control which can affect the use of these products, we cannot accept liability for any injury, loss, or damage resulting from reliance upon such information. Our statement is based on our current level of knowledge and covers products as supplied by Majestic Fire Apparel, Inc. at the date of issue. Since conditions of use are outside our company's control, Majestic Fire Apparel, Inc. makes no warranties, express or implied, and assumes no liability in connection with any use of this information.
