BEE KEEPER HOOD

2 PLY- 40 cal & 50 cal

- Comfortably fits over a standard hard hat with the use of a cap bracket system (included)
- Moisture wicking material with breathability reduces the risk of heat stress
- Generous coverage with 32" front, 26" back & side lengths. Velcro attachment in both the front and back secures the coverage.

ARC JACKET & PANT

2 PLY- 40 cal & 50 cal

JACKET

- Full front Velcro covered zipper with convenient side pockets, the perfect combination of comfort and protection
- Inherently Protective material protects against extreme radiant heat, as well as intense heat from electric arc; all without the risk of that protective nature being "washed out"
- Available in sizes Small-5XL

PANT

- Suspenders, generous sizing, and Velcro covered leg zippers which extend to the upper thigh allow for an easy fit especially over dielectric boots.
- Multi-sized patch pockets keep tools at hand
- Customizable including, but not limited to, different pocket configurations, embroidery & packaging

360 HOOD

1 PLY- 21 cal 2 PLY- 52 cal

- Constructed of Interlock C6 inherently fire retardant material.
- Offers a comfortable fit, excellent moisture management and breathability
- Convertible design offers enhanced versatility 18" long w/6 ways to wear it
- Provides electric arc protection which addresses the needs of the industrial safety world

SPORTS BRA

1 PLY- 16 cal-21 cal

- Excellent moisture wicking, greater water vapor transfer and breathability
- Comfortable support with no underwire
- Sizes Small - 5XL

LONG UNDERWEAR

1 PLY- 16 cal-21 cal

- Interlock C6 material protects from arc flash while wicking moisture away from skin, maximizing comfort and safety
- Available in crew neck, mock neck or turtleneck styles
- FR Baselayers are engineered to maintain performance values after unlimited launderings with less static buildup
- Sizes Small - 5XL
