Machine wash only using regular detergent. Do not use chlorine bleach or detergents containing chlorine. Do not use fabric softeners or detergents containing fabric softeners. Water temperature not to exceed 130 degrees F. Do not wring - squeeze to remove excess water. Shape and lay flat in a dry, cool, shaded location to dry. Or tumble dry, low heat. Do not commercially dry clean. Do not store in direct sunlight.

ATPV and HAF values found in accordance with ASTM International Standard Test Method F1959-1999. Tests performed by Hugh Hoagland

All weights and measurements are approximate

Do NOT modify, change or alter your glove in any manner

4th generation advanced CARBON technology  
3 elements needed for fire = Oxygen, Heat, and Fuel  
Without one element, a fire cannot start or continue  
When exposed to flame, C6 fibers expand,  
creating an Oxygen starved environment  
so fire cannot continue  
Material is self extinguishing  
Will not melt, drip, ignite, char or shrink  
Inherently flame resistant (no harsh chemical treatments)  
Odor neutralizing - won't absorb odors  
Anti-Static, Moisture wicking  
Knit allows for stretch and shape retention  
Maintains performance values after laundering  
Comfortable layer against the skin (feels like cotton)
