4th generation advanced CARBON technology
3 elements needed for fire = Oxygen, Heat, and Fuel
Without one element, a fire cannot start or continue
When exposed to flame, C6 fibers expand,
creating an Oxygen starved environment
so fire cannot continue
Material is self extinguishing
Will not melt, drip, ignite, char or shrink
Inherently flame resistant (no harsh chemical treatments)
Odor neutralizing - won't absorb odors
Anti-Static
Moisture wicking
Knit allows for stretch and shape retention
Maintains performance values after laundering
Comfortable layer against the skin (feels like cotton)
